

MOHAMAD ARFIANSYAH PUTRA

Bekasi, West Java | 087880614046 | mhmardarfiansyahp@gmail.com

SUMMARY

Full Stack Developer with hands-on experience building enterprise web applications using .NET Framework, Laravel, Java Spring Boot, PostgreSQL, and MySQL. Experienced in REST API development, database migration, system integration, and scalable backend solutions. Familiar with Go and passionate about building reliable and high-performance backend systems.

EDUCATION

Astra Polytechnic

Associate Degree – Information Management | GPA: 3.31

2022 – 2025

Bekasi, Indonesia

WORK EXPERIENCE

BPJS Kesehatan

Fullstack Developer (Contract)

January 2026 – Present

Jakarta, Indonesia

- Developed the PELATIF feature in the SIRETA application using AngularJS and TypeScript, including entity search, filtering, frontend validation, API integration, and activation/deactivation workflows.
- Built service request submission features (Information, Request, Complaint) in the Edabu Business Entity application, covering business validation, ticket generation, document uploads, and SIPP/SENADA integration.
- Developed and refactored services in the Membership Web Application using .NET Framework.
- Migrated stored procedures and database connectivity from SQL Server to PostgreSQL, including query conversion, code refactoring, and performance optimization.
- Implemented RESTful APIs to support membership data processing and system integration.
- Ensured data integrity and application stability throughout migration and development activities.

PT Global Service Indonesia

Fullstack Developer (Intern)

January 2025 – November 2025

Jakarta, Indonesia

- Redesigned the Gotjob application UI into a modern, responsive interface using Vue.js and TypeScript.
- Migrated Gotjob backend from Django to Laravel to improve security and maintainability.
- Improved the Company Profile website by updating design and adding new features using Vue.js.
- Digitized the Asset Management process through a centralized web system built with Laravel and MySQL.
- Designed and developed the 5K2S web platform for student class data management using PHP and MySQL.
- Designed database structures for project efficiency using Lucidchart.

PT Astra Honda Motor

Systems Analyst & Developer (Project-Based)

April 2024 – December 2024

Jakarta, Indonesia

- Migrated the Bill of Materials (BOM) Accessories application to Java Spring Boot, enabling creation, activation, and integration of accessory data by manufacturer, motor type, and color.
- Migrated the Motor Unit Download application to Java Spring Boot, enabling efficient data retrieval and export to Excel and XML.

ORGANIZATIONAL EXPERIENCE

Information Management Student Association (HIMMA MI)

Chairperson of Big Circle

March 2024 – November 2024

Astra Polytechnic

- Resolved conflicts between members of the study program and other study programs.
- Coordinated and facilitated cross-division and cross-class activities within the study program.
- Organized large meetings and led strategic decision-making within the organization.
- Established communication and cooperation with student organizations at the university level.
- Guided and evaluated the performance of division members.

PROJECTS

Student Class Data Management System (5K2S)

- Designed and developed a web platform to manage and visualize student class data, with presentation input and assessment history features using PHP and MySQL.

Livestock Barn Control and Monitoring System

- Built an Android application to control barn machinery with features for feeding, temperature monitoring, and CCTV surveillance using Java Android, Java Spring Boot, and MySQL.

Student Competency Certification Platform

- Developed a certification website to assess student competency (competent/incompetent/absent) using Laravel, ASP.NET Core, Microsoft SQL Server, and MySQL.

Heavy Equipment Borrowing and Maintenance System

- Designed and developed a mobile application for the Heavy Equipment Engineering program to facilitate equipment borrowing and maintenance using Java Android, PHP, and MySQL.

SKILLS

Programming Languages: Java, PHP, C#, JavaScript, Go

Frameworks & Libraries: Java Spring Boot, Java Android, Laravel, CodeIgniter, .NET, React.js, Vue.js, Express.js

Databases: PostgreSQL, MySQL, SQL Server, Oracle

System Design: Lucidchart, Draw.io

CERTIFICATIONS

- MikroTik Certified Network Associate (MTCNA)
